RIM HEAVY DUTY EXIT DEVICE ED93/ED93F

ANSI Grade 1

SPECIFICATIONS

Device Functions	Trim available separately
Device Lengths	3': 2'2" to 3' (660mm to 914mm) 4': 2'9" to 4' (838mm to 1219mm)
Strikes	Dull Black Rim Strike (EDLSR-239)
Dogging Feature	Hex Key Dogging available on Non-Fire Rated devices only
Dogging Options	Cylinder Dogging kits available
Electric Options	Alarm Kit 36" and 48" available
Miscellaneous	GBK Glass Bead Kit
Fasteners & Sex Bolts	Furnished with wood & machine screws. Thru-bolts standard on Fire-Rated devices
Latch Bolt	Stainless Steel 3/4" (19mm) throw
Device Centerline from Finished Floor	41" (1041mm)
Center Case Dimensions	8-3/32" x 2-13/16" x 2-15/32" (206mm x 71mm x 63mm)
Mechanism Case Dimensions	2-3/16" w x 1-15/16" (55.4mm x 49.1mm)
Pushbar Projections	Neutral 3-3/4" (95.3mm) Depressed 2-15/16" (74.5mm)

APPLICATION AND FEATURES

INOX ED93 and ED93F Rim Exit Devices meet ANSI A156.3 Grade 1 standards, are UL listed for Panic and Fire Exit hardware, and will install on a standard 161 cutout. They are ideal for most single door applications or double doors using a mullion.

Non-handed with a universal design, ED93 and ED93F easily retrofit the Von Duprin 99 series installation when paired with INOX Exit Device trim.

CODE COMPLIANCE

ANSI/BHMA A156.3 Grade 1 Exit Devices
ANSI/BHMA A156.29 Exit Lock and Alarm

SURFACE MOUNTED VERTICAL ROD ED93-SVR/ED93F-SVR

ANSI Grade 1

APPLICATION AND FEATURES

INOX ED93-SVR and ED93F-SVR Surface Mounted Vertical Rod Exit Devices meet ANSI A156.3 Grade 1 standards and are UL listed for Panic Exit Hardware. With a universal design, the Exit Devices will install on a standard 161 cutout and easily retrofits the Von Duprin 99 series when paired with INOX Exit Device trim.

INOX ED93-SVR and ED93F-SVR Exit Devices are perfect for most single and double door applications.

LESS BOTTOM ROD ED93-LBR/ED93F-LBR

ANSI Grade 1

APPLICATION AND FEATURES

INOX ED93-LBR and ED93F-LBR Less Bottom Rod Exit Devices use a spring-loaded auxiliary latch bolt in the lower door edge, providing free access for wheelchairs and stretchers.

Meeting ANSI A156.3 Grade 1 standards and UL listed for Panic Exit Hardware, the Exit Devices are suitable for all double doors and install easily with a standard 161 cutout. Their non-handed, universal design allows them to retrofit the Von Duprin 99 series installation when paired with INOX Exit Device trim.

HEAVY DUTY MORTISE DEVICE ED93-MED/ED93F-MED

ANSI Grade 1

SPECIFICATIONS

Device Functions	MED for Exit Only MED08 for Entry MED09 for Storeroom MED14 for Passage
Device Lengths	3': 2'2" to 3' (660mm to 914mm) 4': 2'9" to 4' (838mm to 1219mm)
Strikes	Standard ANSI Strike
Dogging Options	Hex Key Dogging available on Non-Fire Rated Devices Only
Electric Options	Alarm Kit 36" and 48" available
Miscellaneous	GBK Glass Bead Kit
Fasteners & Sex Bolts	Furnished with wood & machine screws
Mortise Lock	Grade 1 for 1-3/4" thick doors, reversible, 2-3/4" backset
Device Centerline from Finished Floor	41" (1041mm)
Center Case Dimensions	8-3/32" x 2-13/16" x 2-15/32" (206mm x 71mm x 63mm)
Mechanism Case Dimensions	2-3/16" w x 1-15/16" (55.4mm x 49.1mm)
Pushbar Projections	Neutral: 3-3/4" (95.3mm) Depressed: 2-15/16" (74.5mm)

APPLICATION AND FEATURES

INOX ED93-MED and ED93F-MED Mortise Exit Devices are designed to provide superior, long-lasting service for most single door applications or on double doors when open-backed strikes are used.

The Mortise Exit Devices are UL listed for Fire Exit Hardware and meet ANSI A156.3 Grade 1 standards.

Installed on a standard 86 pocket prep, the Mortise Exit Devices are non-handed with a universal design that allows them to easily retrofit the Von Duprin 99 series installation when paired with INOX Exit Device trim.

CODE COMPLIANCE

CONCEALED VERTICAL ROD ED93-CVRM/ED93F-CVRM

ANSI Grade 1

APPLICATION AND FEATURES

Meeting ANSI A156.3 Grade 1 standards and UL listed for Fire Exit Hardware, INOX ED93-CVRM and ED93F-CVRM Concealed Vertical Rod Exit Devices for metal doors are perfect for most single and double hollow metal door applications.

CVRM Exit Devices are non-handed with a universal design that allows them to easily retrofit the Von Duprin 99 series installation when paired with INOX Exit Device trim.

For additional finish options not listed, contact Sales Department for MOQ and lead times

CONCEALED VERTICAL ROD ED93-CVRW/ED93F-CVRW

ANSI Grade 1

APPLICATION AND FEATURES

Meeting ANSI A156.3 Grade 1 standards and UL listed for Fire Exit Hardware, INOX ED93-CVRW and ED93F-CVRW Concealed Vertical Rod Exit Devices for wood doors are perfect for most single and double hollow wood door applications.

CVRW Exit Devices are non-handed with a universal design that allows them to easily retrofit the Von Duprin 99 series installation when paired with INOX exit device trim.

Description

Concealed Vertical Rod for Wood Doors, 36" , Fire Rated

Part Number

ED93F-CVRW3684

Standard Finish

32D Satin Stainless Steel

For additional finish options not listed, contact Sales Department for MOQ and lead times

ED93 ELECTRIFICATION

Motor Driven Latch Retraction Exit Device-ED93 QLR

APPLICATION

Electric Latch Retraction feature allows for remote unlatching of exit device. It gives remote keyless access control in high traffic conditions where exit devices are required, such as hospitals, airports and schools. They are also commonly used with automatic door operators

The ED93 Motor Driven latch retraction (QLR) exit device uses electronic motor technology, which allows faster, quieter and smoother latch pullback compared to the solenoid activated latch retraction

Motor technology use a substantially lower pulse of current (compared to solenoid activated devices) to retract latch bolt, and using even less power to hold them retracted. It's a perfect choice for hospitals, libraries and any area that requires reduced noise

SPECIFICATIONS

Voltage Range	22 to 30V DC system protection (unit shuts down when voltage exceeds 30V DC)
Current Draw	1 A for 400ms, 125mA holding (dogged) thereafter electronic travel adjustment approximately 1/4"

FUNCTION

ED93 Exit device with QLR retracts the latch bolt by power either momentarily or for extended periods of time, allowing for outside access or auto operator integration. When power is out, the device and latch are secured (Fail Secure). Inside push pad of exit device always allows for emergency egress

Motor driven electric latch retraction (QLR) function is available for ED93 Series Rim, SVR and mortise devices

FEATURES

- Fast, quiet and smooth operation
- Low surge current draw
- Improved efficiency and strength
- Electric dogging
- 6' power cable with quick connect
- Up to 300' wire run with 18/2 wire, provide cost savings by using less power supplies for multiple devices
- Compatible with most 24V DC, 1A (or greater) regulated power supplies. Please see page 14 for power supply options, order separately
- On board self-diagnostics

SWITCHES

A variety of monitoring switches are available for INOX ED93 exit devices. All switches are SPDT (single pull, double throw) and available for the following applications either installed with ED93 exit device or as kits

REX - Request-to-Exit Switch

Request-to-Exit switch sends a signal to alert the control panel that the door is about to be opened by someone intending on entering a secured area

LBM - Latchbolt Monitor Switch

Latchbolt Monitor switch sends a signal to control panel to monitor the position of latchbolt

ELECTRIFIED EXIT ESCUTCHEON TRIM

APPLICATION

Electrified exit escutcheon trim allows outside lever locked or unlocked electronically for access control. It is commonly used for stairwell or access-restricted areas with conditions where fire/life safety codes require a "fail safe" condition, which is not an option with electrified latch retraction devices

SPECIFICATIONS

Voltage requirement: 12V AC/DC or 24V AC/DC
Amperage: 250mA@12V or 150mA@24V

SWITCH

REE- Request to Enter Switch

Request to Enter (REE) Switch can be added to the ED93 escutcheon trim. It is a SPDT (single pull, double throw) switch that sends a signal to alert the control panel that the door is about to be opened by someone intending on entering a secured area

FEATURES

Continuous duty solenoids for cooler operation during continuous-on applications
Standard plug-in rectifier allows for an AC or DC power source
Low current draw

FUNCTIONS

EDES07NL-EL

Storeroom Electronically Locked (Fail Safe)

Outside lever LOCKED electronically (EL). Switched power (de-energized) allows outside lever to retract latch. Loss of power will cause outside lever unlocked (Fail Safe). Outside key momentarily unlocks outside lever to retract latch. Inside push pad of exit device is always free for immediate egress

EDES07NL-EU

Storeroom Electronically Unlocked (Fail Secure)

Outside lever UNLOCKED electronically (EU). Switched power (de-energized) locks outside lever. Loss of power will cause outside lever locked (Fail Secure). Outside key momentarily unlocks outside lever to retract latch. Inside push pad of exit device is always free for immediate egress

OPTIONS

CRU12i - Current Reduction Unit

A current reduction unit is recommended in "continuously on" applications to reduce heat and extend solenoid life. The unit intelligently detects 12V to 30V AC/DC input voltages and converts it to a dynamic voltage to power a 12V DC solenoid efficiently. This eliminates the need for manual current adjustment, and increase the life of solenoid. Energizes 12V locking devices only

EXIT ALARM KITS & CYLINDER DOGGING KIT

EXIT ALARM KIT - EDALM

INOX Alarm Kit for ED93 Series has an internal horn that will sound once the push bar has been depressed, signaling that the door has been opened. Alarm is powered by a 9 volt battery and will sound horn intermittently when battery is low. Device includes a standard 1-1/4", "C" keyway mortise cylinder to operate shut-off switch

CYLINDER DOGGING EXIT DEVICE

INOX Cylinder dogging is available for Non-Fire-rated devices. Mortise Cylinder 1-1/4" included. Add "-CD" to Exit Device standard item code

GLASS BEAD SHIM KITS

EDGBK70R

For Rim Device, 1/8" Thick

EDGBK70F

For Fire Device, 1/8" Thick

EDGBK70V

For Vertical Device, 1/8" Thick

When glass bead shims are used, outside trim may require longer spindle and thru-bolts

OPTIONAL EXIT DEVICE STRIKES AND FILLERS

STRIKES

EDLSR-239

Strike for ED93/ED93F Rim Exit Device

EDLSR-ASA

Strike for ED93/ED93F Mortise Exit Device

EDLSR-227

Top Strike for ED93-SVR Vertical Rod Exit Device

EDLSR-260

Top Strike for ED93F-CVRM/ED93F-CVRW Concealed Vertical Rod Exit Device

EDLSR-245

Top Strike for ED93F-SVR Vertical Rod Exit Device

EDLSR-265

Bottom Strike for ED93-CVRM/ED93F-CVRM/ED93-CVRW/ED93F-CVRW Concealed Vertical Rod Exit Devices

EDLSR-233

Bottom Strike for ED93-SVR/ED93F-SVR Vertical Rod Exit Device

EDSF

Strike Filler for ED93/ED93F Rim Exit Device (EDSF)

EDLSR-221

Bottom Strike for ED93-SVR Vertical Rod Exit Device

EDLFF

Lock Front Filler for ED70/ED70F Rim Exit Device (EDLFF)

POWER TRANSFER

CONCEALED ELECTRIC POWER TRANSFERS

ELEPT

INOX Concealed Electric Power Transfer Devices provide a secure means of transferring power for exit devices, locks, and signal wires from the frame to the door. These devices are completely concealed when the door is closed and are ideal for heavy traffic areas that require higher security to prevent tampering and abuse.

CONCEALED POWER TRANSFER LOOP

ELCPTL

INOX Concealed Power Transfer Loop is a frame mortised device for use on a hollow metal frame. The device consists of a steel dust box and a flexible steel loop.

POWER TRANSFER HINGES

ELPTH

INOX Power Transfer Hinges are ideal for passing low voltage power from the hinge jamb to the lockset without any exposed wiring. For use with latch pull back devices, electric mortise, electric strikes (on a pair of doors), and cylindrical locksets.

CONCEALED DOOR LOOPS

ELCDL

ELCDL34

(For 3/4" offset pivot)

The INOX Concealed Door Loop is a cost-efficient method for transferring low voltage electricity from the frame of the door to the locking device. These door loops are completely concealed once the door is closed. Concealed door loops are also available for 3/4" offset pivot.

SURFACE DOOR LOOPS

ELSDL

INOX surface mounted door loops offers a safe method to transfer power when it is not possible to conceal a door loop.

POWER SUPPLY INX-ELPS

4-Output Hardware Power Supply

SPECIFICATION

Input Voltage	120 VAC, 60 Hz Input Fuse: 2 Amp Fuse @250 VAC
Output Voltage	4A @ 24V DC 4 Solid State I/Os 1.5A auto-resetting fused outputs Over-voltage protection Output voltage trim pot
Battery Backup	Regulated, independent battery charging with automatic uninterrupted backup circuit. Battery cables included and requires 2 12V DC 7 AH batteries (not included)
Fire Alarm	Includes Fire Alarm link
LED Indicators	Red (AC Power), Green (DC Output), Orange (Battery output)
Product Weight	14 lbs
Shipping Weight	15 lbs
Dimensions	13" W x 15.5" H x 5" D
Electrical	Temperature range 32° to 120° F Maximum humidity 85%

APPLICATION AND FEATURES

Delivers 4 AMPS @24V DC to up to 4 PTC fused outputs: locks, exit trim, and LP motor / solenoid kits
 Robust solid state outputs to protect system relays from surges, grounds, or shorts
 Interruption-free battery backup
 Ample in-rush/hold current for latch retraction
 Door-mounted LED power indicator
 Easy to remove Euro connectors
 Linear design makes it a perfect match for motor or solenoid driven exit devices, electric locks and strikes

CODE COMPLIANCE

UL 294 Listed

AL Aluminum Painted

RIM EXIT DEVICE ED70/ED70F

ANSI Grade 1

SPECIFICATION

Device Functions	Trims available separately
Device Lengths	2'2" to 3' (660mm to 914mm) 2'9" to 4' (838mm to 1219mm)
Strike	Dull Black Rim (EDLSR-255)
Dogging Feature	Hex Key Dogging available on Non-Fire Rated devices only
Dogging Options	Cylinder Dogging available on complete devices only, not sold as a separate kit
Electric Options	Alarm Kit 36/48" available includes 1/14" C keyway mortise cylinder to operate the shut off switch
Miscellaneous	GBK Glass Bead Kit
Fasteners & Sex Bolts	Furnished with wood & machine screws. Thru-bolts are standard on Fire Rated devices
Latch Bolt	Stainless Steel 3/4" (19mm) throw
Device Centerline from Finished Floor	Refer to local and state regulations for standard mounting height
Center Case Dimensions	7-7/8" x 2-9/16" x 1-7/8" (200mm x 65mm x 48mm)
Mechanism Case Dimensions	1-9/16" x 2" (41mm x 51mm)
Pushbar Projections	Neutral 2-1/2" (64mm) Depressed 1-3/4" (44mm)

APPLICATION AND FEATURES

INOX ED70 and ED70F Rim Exit Devices are suited for most single door applications. They can also be used on double doors when using a mullion.

INOX ED70 and ED70F Rim Exit Devices are non-handed with a universal design that allows them to easily retrofit the Von Duprin 98/99 series and Sargent 8800 series installations when paired with INOX exit device trim.

INOX ED70 and ED70F Rim Exit Devices will fit all doors up to 36" in width and 1-3/4" in thickness. 48" width devices can be ordered as an option. Cylinder dogging is also available as an option on a non-rated device.

SURFACE MOUNTED VERTICAL ROD ED70-SVR/ED70F-SVR

ANSI Grade 1

APPLICATION AND FEATURES

INOX ED70-SVR and ED70F-SVR Vertical Rod Exit Devices are suited for most single and double door applications

INOX ED70-SVR and ED70F-SVR Vertical Rod Exit Devices are UL listed for Panic Exit Hardware. They meet ANSI A156.3 Grade 1 standards and will install on a standard 161 cutout

INOX ED70-SVR and ED70F-SVR Vertical Rod Exit Devices are non-handed with a universal design that allows them to easily retrofit the Von Duprin 98/99 series and Sargent 8800 series installations when paired with INOX exit device trim

LESS BOTTOM ROD EXIT DEVICE ED70-LBR/ED70F-LBR

ANSI Grade 1

APPLICATION AND FEATURES

INOX ED70-LBR and ED70F-LBR Less Bottom Rod Exit Devices come has no bottom rod but instead uses a spring loaded auxiliary latch bolt in the lower door edge. This provides free access for wheelchairs and stretchers. INOX ED70-LBR and ED70F-LBR Less Bottom Rod Exit Devices are UL listed for Panic Exit Hardware. They meet ANSI A156.3 Grade 1 standards and will install on a standard 161 cut out. INOX ED70-LBR and ED70F-LBR Vertical Rod Exit Devices are non-handed with a universal design that allows them to easily retrofit the Von Duprin 98/99 series and Sargent 8800 series installations when paired with INOX exit device trim.

ALARM KITS & CYLINDER DOGGING DEVICE

EXIT ALARM KIT - EDALM

INOX alarm kit for ED70 Series has an internal horn that will sound once the push bar has been depressed, signaling that the door has been opened. The alarm is powered by a 9 volt battery, and will sound horn intermittently when the battery is low. The device includes a standard 1-1/4", "C" keyway mortise cylinder to operate the shut off switch.

CYLINDER DOGGING EXIT DEVICE

INOX Cylinder dogging is available for non-rated devices and only available in full devices on the ED70 Series, not as a separate kit. Mortise Cylinder 1-1/4" included. Add "-CD" to Exit Device standard item code.

GLASS BEAD SHIM KITS

EDGBK70R
For Rim Device, 1/8" Thick

EDGBK70V
For Vertical Device, 1/8" Thick

EDGBK70F
For Fire Device, 1/8" Thick

When glass bead shims are used, outside trim may require longer spindle and thru-bolts.

RIM EXIT DEVICE ED81/ED81F

ANSI Grade 1

SPECIFICATIONS

Device Functions	Trims available separately
Device Lengths	33" (838mm) 45" (1143mm)
Strikes	Dull Black RIM (EDLSR-239)
Dogging Feature	Hex Key Dogging available on Non-Fire Rated devices only
Dogging Options	Cylinder Dogging available on complete devices only, not sold as a separate kit
Fasteners & Sex Bolts	Furnished with wood & machine screws. Thru-bolts are standard on Fire Rated devices
Latch Bolt	Stainless Steel 3/4" (19mm) throw
Center Case Distance	8-1/32" x 1-15/16" x 2" (204mm x 71mm x 51mm)
Mechanism Case Dimensions	2-3/16" x 1-15/16" (55.4mm x 49.1mm)
Pushbar Projections	Neutral 3-1/16" (78mm) Depressed 2-19/32" (66mm)

APPLICATION AND FEATURES

INOX ED81 and ED81F RIM Exit Devices with narrow design are suited for most single door applications. They can also be used on double doors when using a mullion

ED81 and ED81F RIM Exit Devices are UL listed for Panic Exit Hardware and meet ANSI A156.3 Grade 1 standards

INOX ED81 and ED81F RIM Exit Devices will fit all doors up to 36" in width and 1-3/4" in thickness. 48" in width devices can be ordered as an option

CODE COMPLIANCE

SURFACE MOUNTED VERTICAL ROD ED81-SVR/ED81F-SVR

ANSI Grade 1

APPLICATION AND FEATURES

INOX ED81-SVR and ED81F-SVR Vertical Rod for Narrow design Exit Devices are suited for use on contemporary glass doors in all public buildings, resort hotels, retail stores and for all types of aluminum doors or aesthetic requirements

INOX ED81-SVR and ED81F-SVR Vertical Rod for Narrow Stile Exit Devices are UL listed for Panic Exit Hardware. They meet ANSI A156.3 Grade 1 standards

INOX ED81-SVR and ED81F-SVR Exit Devices will fit all doors up to 36" in width and 1-3/4" in thickness. 48" in width devices can be ordered as an option

SPECIFICATION

Device Functions	Trims available separately
Device Lengths	29" to 36" (736mm to 914mm) 33" to 48" (838mm to 1219mm)
Strikes	Standard (EDLSR-801) Fire Rated (EDLSR-802)
Dogging Feature	Hex Key Dogging available on Non-Fire Rated Devices Only
Dogging Option	Cylinder Dogging available on complete devices only, not sold as a separate kit
Electric Options	EDALM - Exit Alarm QLR- Quiet Latch Retraction REX - Request to Exit LBM - Latch Bolt Monitoring
Miscellaneous Options	GBK Glass Bead Kit
Fasteners & Sex Bolts	Furnished with wood & machine screws. Thru-bolts standard on Fire Rated devices

ED81MED NARROW STILE ELECTRIFICATION MOTOR DRIVEN LATCH RETRACTION EXIT DEVICE

ANSI Grade 1

SPECIFICATION

Voltage Range	22 to 30V DC Systems Shuts down if voltage exceeds 30V DC
Current Draw	1A for 400ms to retract, then 125mA to maintain electronic dogging

APPLICATION

Quiet Latch Retraction (QLR) feature allows for remote unlatching of exit device. It gives remote keyless access control in high traffic conditions where exit devices are required, such as hospitals, airports and schools. It is also commonly used with automatic door operators

ED81 QLR exit device uses electronic motor technology, which allows faster, quieter and smoother latch pullback compared to the solenoid activated latch retraction. Motor technology uses a substantially lower pulse of current (compared to solenoid activated devices) to retract latch bolt, and uses even less power to hold latch bolt retracted. It's a perfect choice for hospitals, libraries and any area that requires reduced noise

SWITCHES

All switches are SPDT (single pull, double throw) and available for the following applications either installed with ED81 Narrow Stile Exit Device or as kits:

REX - Request-to-Exit Switch

Request-to-Exit switch sends a signal to alert the control panel that the door is about to be opened by someone intent on exiting a secured area

LBM - Latchbolt Monitor Switch

Latchbolt Monitor switch sends a signal to control panel to monitor the position of latchbolt

FEATURES

- Fast, quiet and smooth operation
- Low surge current draw
- Greater efficiency and strength
- Electric dogging
- 6' power cable with quick connect
- Up to 300' wire run with 18/2 wire, providing cost savings by using less power supplies for multiple devices
- Compatible with most 24V DC, 1A (or greater) regulated power supplies. For power supply options, order separately
- On board self-diagnostic

FUNCTION

ED81 Narrow Stile Exit Device with QLR retracts the latch bolt by power either momentarily or for extended periods of time, allowing for outside access or auto operator integration. When power is out, the device and latch are locked (Fail Secure). Inside push pad of exit device always allows for free egress

Motor-driven QLR function is available for ED81 Series RIM, SVR and mortise devices

EDNS07 ELECTRIFIED TRIM NARROW STILE EXIT DEVICE

ANSI Grade 1

APPLICATION

Electrified exit escutcheon trim allows outside lever locked or unlocked electronically for access control

It is commonly used for stairwell or access restricted area with conditions where fire/life safety codes require a “fail safe” condition, which is not an option with electrified latch retraction device

SWITCH

Switch is SPDT (single pull, double throw) and available either installed with ED81 Narrow Stile Exit Device or as a kit:

REE - Request-to-Enter Switch

Switch can be added to the ED81 escutcheon trim. It is a SPDT (single pull, double throw) switch that sends a signal to alert the control panel that the door is about to be opened by someone intending to enter a secured area

SPECIFICATION

Voltage Range 24V AC/DC Systems

AMP Range 150mA @24V

FEATURES

Continuous duty solenoids for cooler operation during continuous-on applications
Standard plug-in rectifier allows for either AC or DC power source
Low current draw

FUNCTION

EDES07NL-EL

Storeroom Electronically Locked (Fail Safe)

Outside lever LOCKED electronically (EL). Switched power (de-energized) allows outside lever to retract latch. Loss of power will cause outside lever unlocked (Fail Safe). Outside key momentarily unlocks outside lever to retract latch. Inside push pad of exit device is always free for immediate egress.

EDES07NL-EU

Storeroom Electronically Unlocked (Fail Secure)

Outside lever UNLOCKED electronically (EU). Switched power (de-energized) locks outside lever. Loss of power will cause outside lever locked (Fail Secure). Outside key momentarily unlocks outside lever to retract latch. Inside push pad of exit device is always free for immediate egress

OPTIONAL TRIM FOR RIM, SVR, CVR

THUMBPIECE AND PLATE TRIM

Plate Size: 11-13/16" x 1-25/32"

Plate Size: 11-13/16" x 1-25/32"

Cylinder: 1/4" Mortise Cylinder included for Classroom function. Rim Cylinder included for Night Latch function. Schlage C keyway standard. Specify "IC" for IC Core Cylinders. Other keyways available by special order

Function	Classroom
ANSI	08
Item No.	ED81CTP10CL
Cylinder Type	Mortise 1/4"

Function	Night Latch
ANSI	03
Item No.	ED81CTP10NL
Cylinder Type	Rim

Function	Passage
ANSI	14
Item No.	ED81CTP10BE
Cylinder Type	None

Function	Dummy
ANSI	02
Item No.	ED81CTP10DM
Cylinder Type	None

EXIT ALARM KITS & CYLINDER DOGGING KIT

EXIT ALARM KIT- ED81ALM

INOX alarm kit for ED81 Series has an internal horn that will sound once the push bar has been depressed, signaling the door has been opened. The alarm is powered by a 9 volt battery, and will sound horn intermittently when the battery is low

CYLINDER DOGGING EXIT DEVICE

INOX Cylinder dogging is available for non-rated devices and only available in full devices on the ED81 Series, not as a separate kit. Mortise Cylinder 1-1/4" included. Add "-CD" to Exit Device standard item code

FIRE-RATED KEYED REMOVABLE MULLIONS

For use with Fire Rated Rim Exit Device on Fire Rated pairs of doors
